Sioux City Journal, 12: Extra men  
and teams yesterday were added to the  
revelment force on the Nebraska shore  
of the Missouri river to protect the fa-  
scine work until the government takes  
charge. The force was reduced Fri-  
day by the railway officials. The gov-  
ernment was expected to take charge  
immediately, thus relieving the rail-  
roads and the Combination Bridge  
company of expense. Cutting was  
slight yesterday, but the addition to  
the force was made as a precaution  
against serious inroads which the high  
winds might cause.

Sioux City Commercial Reporter:  
A couple of merchants near the corner  
of 4th and Pearl sts were discussing  
the events of the day and one of them

asked the other: "What are all of  
those Nebraska farmers standing over  
there on Pearl street for?" "Why,"  
he says, "those are old time customers  
of Mr Kearney. They possibly have  
been making a deposit in the Mid-  
West bank. Do you know, since Mr  
Kearney opened the bank on Pearl st,  
our trade has been benefited very  
much by new patrons from Nebraska,  
South Dakota and Iowa, who, I be-  
lieve, have been attracted to this part  
of the town on account of the new  
bank."

Sioux City Journal, 15th: Prepara-  
tions for the permanent protection of  
the Nebraska shore of the Missouri  
river by the government have been be-  
gun. Several carloads of brush have  
been sent to South Sioux City, Neb.,  
for the work, and United States Engi-  
neer Frederick W Honens, of Kansas  
City, Mo, yesterday made an inspec-  
tion of the shore line which is to be  
reverted. One man has been sent  
out along the Missouri river to locate  
brush marshes. If possible the brush  
will be cut near the river and trans-  
ported to the scene of the work by  
towboats. Condemnation of the boiler  
on the old pile driver will hold up the  
work for a time. Another boiler must  
be obtained and installed before the  
machine will be ready for action at  
the Nebraska shore. The Missouri  
river water stage since Monday morn-  
ing has increased 2.7 feet. Heavy  
rains and swollen streams above Sioux  
City are thought to have caused the  
rise. The belief of some that the  
June rains were beginning is scouted  
by the official weather and river ob-  
server.

Homer Star: Mrs George Ashford  
spent the week end at Lincoln return-  
ing Tuesday evening. Mr and Mrs  
Eph Rockwell were in Omaha the first  
of the week in consultation with an eye  
doctor. Gertie Buckland went to

will visit several weeks with her sister,

for a tumor. She is recovering  
nicely. George Skidmore and fam-  
ily who have been in Oklahoma the  
past four years, arrived in Homer,  
overland, Monday morning and will  
again take up their residence here. James  
Humphrey accidentally shot him-  
self in the foot with a twenty-two rifle  
last Sunday. The wound was merely a  
flesh one, however, and not of a serious  
nature. Roy Rynell and Ross  
Johnson came back from York Friday  
night. They were among the discards  
out of forty odd ball players who tried  
out for the ball team at that place. Louis  
Rockwell shipped twenty-nine  
head of calves to South Omaha last  
Monday. They were all white face of  
his own raising and were sold for  
\$8.45 per hundred, the highest price  
that has been paid for calves this year.  
They averaged 785 pounds and  
brought \$66.42. The bunch brought  
\$1876. Mr Rockwell and youngest  
son Forrest accompanied them to the  
market.

Sioux City Journal, 10: E H Gribble,  
of Dakota City, had in a load of  
hogs Thursday that brought \$7.70, the  
top of the market. President Taft  
yesterday signed the emergency bill  
for the appropriation of \$50,000 for the  
Missouri river bank near South Sioux  
City. Announcement that the bill  
had been signed was received last  
night by C D Smiley, of South Sioux  
City, from Congressman D V Stephens,  
of Nebraska. Congressman Stephens  
said he had urged the chief of United  
States engineers to act without delay,  
and received the assurance that the  
work would be started within a short  
time. Government engineers in Sioux  
City declare that the appropriation in  
all probability will be used to construct  
a mat and crushed stone foundation on  
the Nebraska shore. The mat will be  
of woven willows, about 5,000 feet  
long and 80 feet wide. Several thou-  
sands of crushed stone will be re-  
quired for the work. The wall would  
slope from the top of the bank to the  
water edge. The temporary revetment  
work on the Nebraska shore still is  
being pushed under the direction of

is a story of humor  
and dramatic thrills.  
Stirring and laugh-  
able scenes alternate  
along its shores like  
the whirlpools and  
eddies of a mountain

Cross Roads is a  
joy, the fight at Slos-

the Judge's jail-

the government engineers. The current  
at the point of the ravages has  
changed little in the last few days and  
with the river at its present stage,  
serious damage to the shore line is not  
expected. John S Campbell, United  
States overseer, said that the soil has  
been sliding down to what is known  
among engineers as the angle of re-

Agents Wanted.

The Mutual Benefit Health & Acci-

write a different form of insurance  
than most companies, for instance,  
they issue a combination policy pay-  
ing \$1,000.00 in case of accidental  
death or the loss of hands, feet or eyes  
and \$10.00 for sickness, accident or  
quarantine and pay partial disability  
and surgeon's fees and the cost of this  
insurance is only \$1.00 month. We  
have no different classes as Class A,  
Class B, etc, as other companies have,  
but everyone carrying this policy  
draws the same benefits.

We are in need of an agent in this  
locality, as well as in other parts of  
Nebraska, and would be glad to hear  
from those who wish to better them-  
selves. It is a pleasant outdoor work  
and the policy is very easy to write as  
it is so much different than other in-  
surance.

If you wish to make a change, or  
devote your spare time to the work  
and you are honest, write to us now  
before the territory is all covered.

Guard Your Children  
Against Bowel Trouble

Many children at an early age  
become constipated, and frequently  
serious consequences result. Not  
being able to realize his own con-  
dition, a child's bowels should be  
constantly watched, and a gentle  
laxative given when necessary.

Dr. Miles' Laxative Tablets are  
especially well adapted to women  
and children. The Sisters of  
Christian Charity, 53 Charles St.,  
Luzerne, Pa., who attend many  
cases of sickness say of them:

"Some time ago we began using Dr.  
Miles' Laxative Tablets and find that  
we like them very much. Their action  
is excellent and we are grateful for  
having been made acquainted with  
them. We have had good results in  
every case and the Sisters are very  
much pleased."

The form and flavor of any medi-  
cine is very important, no matter  
who is to take it. The taste and  
appearance are especially important  
when children are concerned. All  
parents know how hard it is to give  
the average child "medicine," even  
though the taste is partially dis-  
guised. In using Dr. Miles' Lax-  
ative Tablets, however, this diffi-  
culty is overcome. The shape of  
the tablets, their appearance and  
candy-like taste at once appeal to  
any child, with the result that they  
are taken without objection.

The rich chocolate flavor and  
absence of other taste, make Dr.  
Miles' Laxative Tablets the ideal  
remedy for children.

If the first box fails to benefit,  
the price is returned. Ask your  
druggist. A box of 25 doses costs  
only 25 cents. Never sold in bulk.
